

United States Department of Agriculture

California Citrus to Viet Nam 2022-2023

USDA-APHIS-PPQ, California Program Managers

Scott Cornett, USDA, APHIS, PPQ
Trade Specialist

Pest of Concern

Harmful Organism List in PExD: Not an inclusive list – If not on list specimen is sent for ID (genus & species, viability)

Fruit Fly Monitoring (safeguarding)

Phytosanitary Import Requirements: Quarantine Pest of Concern to Vietnam and presence in CA Annex 1

United States Department of Agriculture

Review Pest of Concern to Vietnam

Other Areas

Currently no approved treatment should quarantine pests be found on arrival.

Provide list of approved packer/shippers to Vietnam (similar to other trade partners)

Vietnam PPD regulatory authority will issue Import Permits which is required before export or phytosanitary inspection

Import Permit (IP) is issued to Viet Nam Importer, to be presented to US Exporter

Fruit Flies

Citrus from FF Q-area must be cold treated either prior to shipping or in-transit. Follow cold treatment protocol.

Must be safeguarded in-transit or trans loading to ensure no contamination when moving through a Fruit Fly Quarantine area.

See the California Monitoring System and Fruit Fly Monitor System CDFA Website.
